

## Summer Fun

long days, warmth,  
vibrance

**Summer** is a season of adventure, excitement, and relaxation. It influences art through the emotions it brings, the changes in nature, and even the literal light the sun brings.

The **sun** and its effects on landscapes, characters, and anything outdoors can be great to study. Pay attention to how harsh light affects objects, how things appear in shadow, and the change in vibrance compared to a cloudy day.

**Hello! It's July!** If you're up in the northern hemisphere, you might be looking towards some nice summer activities. Now's a wonderful time to study nature, bright sunny environments, and get out and meet other artist friends.

**Southern hemisphere?** Haven't forgotten you. Try flipping any summery prompts around into their winter versions. Change summery sports into wintry ones, beach relaxations to snowy adventures. Or if you pine for the sun, draw your ideal summer too.

**Like the prompt?**  
Draw it and check ☐ it off.

**Not feeling it?**  
Draw what you want and write it in the blank space.

**This calendar is yours.**  
Miss a day? Drew the wrong thing? That's OK! We're all human. Let yourself make mistakes.
